Amendments to the Drawings

Attached is one (1) replacement sheet and one (1) annotated sheet.

To further the prosecution of this application, an amendment has been made to the drawings in Fig. 1, as illustrated in the attached replacement sheet and annotated sheet. This amendment corrects an inadvertent error. The label " V_{REF} " previously pointed to the non-inverting input (+) of the comparator 22. The amendment corrects this error by pointing label " V_{REF} " to the inverting input (-) of the comparator. This correction is clearly supported in the specification, for example, on page 2, lines 1-2. No new matter has been added by this amendment, and the Examiner is respectfully requested to approve it.
